EXCELLENT MAJESTY

1908

BULLETIN V

AGRICULTURAL CENSUS OF ONTARIO QUEBEC AND THE MARITIME PROVINCES

To The Honourable SYDNEY FISHER,
Minister of Agriculture.

Sir,—

I have the honour to present herewith for publication Bulletin v of the Census and Statistics Office, with a final report on the agricultural census of Ontario, Quebec and the Maritime Provinces taken in 1907.

I have the honour to be,
Sir,
Your obedient servant,

ARCHIBALD BLUE,
Chief Officer.

Ottawa, February, 1908.

CONTENTS

STATISTICS BY COUNTIES, 1907

	PAGE.
TABLE I. Farm land cleared, in all crops and in orchard...	1- 4
TABLE II. Fall wheat, spring wheat and oats.....	5- 8
TABLE III. Barley, rye and buckwheat.....	9-12
TABLE IV. Corn in ear, mixed grains and beans.	13-16
TABLE V. Peas, potatoes and roots.....	17-20
TABLE VI. Hay, corn for forage and totals of cereals.....	21-24
TABLE VII. Areas of field crops per 100 acres occupied.....	25-32
TABLE VIII. Live stock.....	33-36
TABLE IX. Live stock per 100 acres occupied.....	37-40

STATISTICS BY PROVINCES, 1901 AND 1907

TABLE X. Farm land cleared, in all crops and in orchard,...	41
TABLE XI. Fall wheat, spring wheat and oats.....	41
TABLE XII. Barley, rye and buckwheat	42
TABLE XIII. Corn in ear, mixed grains and beans	42
TABLE XIV. Peas, potatoes and roots.	43
TABLE XV. Hay, corn for forage and totals of cereals.....	43
TABLE XVI. Areas of field crops per 100 acres occupied...	44
TABLE XVII. Live stock.....	44
TABLE XVIII. Live stock per 100 acres occupied.....	45

CROPS AND LIVE STOCK OF ONTARIO QUEBEC AND THE MARITIME PROVINCES

A census of farm land, field crops and live stock of Ontario, Quebec and the Maritime Provinces was taken in the summer months of 1907 through the medium of the Post Office. For Ontario the work was done by the co-operation of the Census and Statistics Office and the Bureau of Industries,—the schedule being distributed and received through the Post Office by the former and the compilation being made by the latter. In the other provinces, where no local organization exists, the whole of the work was done by the Census and Statistics Office.

A preliminary report containing the statistics of the Maritime Provinces was published as Bulletin III in November, and one containing the statistics of Ontario was published in December as Bulletin IV, in which the results were given for provinces only. This Bulletin contains the totals and finals for the five provinces by counties, but the summary tables x to xviii give comparative statistics for the census years 1901 and 1907 by provinces. The field crops for 1901 however are for the harvest of 1900. Another fact to be observed in an examination of the comparative statistics is, that whereas the census of 1901 was taken at the end of winter, after reduction by slaughter and sale of all surplus animals, the numbers of 1907 are those of the summer season and include additions to the stock of the year by natural increase.

The summary tables x to xviii, showing totals, increases and ratios, are so complete that no other comment on the statistics is called for. But attention may be drawn to three or four principal features. The first is an increase of 2,877,992 acres of cleared farm land in the five provinces in six years. The second is an increase of 1,535,679 acres in all field crops, including 333,798 acres in mixed grains and 1,128,256 acres in hay. The third is an increase of 799,603 in the number of milch cows and other horned cattle. The fourth is a decrease of 699,814 acres and of 10,533,604 bushels in wheat, which is no doubt a result of the larger and cheaper production of this cereal in the Northwest Provinces.

Agricultural
Census of
Ontario, Que-
bec and the
Maritime
Provinces,
1907.

Preliminary
and final Bul-
letins.

Principal
features.

BULLETIN V

RECENSEMENT AGRICOLE D'ONTARIO, DE QUÉBEC ET DES PROVINCES MARITIMES

A l'Honorable SYDNEY FISHER,
Ministre de l'Agriculture.

Monsieur,

J'ai l'honneur de vous présenter ci-joint pour être publié le bulletin v du Bureau du recensement et des statistiques, avec un rapport définitif sur le recensement agricole d'Ontario, de Québec et des provinces maritimes pris en 1907.

J'ai l'honneur d'être,
Monsieur,

Votre obéissant serviteur,

ARCHIBALD BLUE,
Officier en Chef

Ottawa, février, 1908.

TERRES À CULTURE, RÉCOLTES DES CHAMPS ET ANIMAUX DE LA FERME DANS ONTARIO, QUÉBEC ET LES PROVINCES MARITIMES

Un recensement des terres à culture, des récoltes des champs et des animaux de la ferme dans Ontario, Québec et les provinces maritimes a été pris durant l'été de 1907 par l'entremise du bureau de poste. Pour Ontario le travail s'est fait par la coopération du Bureau du recensement et des statistiques avec le Bureau des Industries,—les formules ayant été distribuées et reçues, par la poste, par le premier, tandis que la compilation en a été faite par le dernier. Pour les autres provinces, où aucune organisation locale n'est établie, tout le travail a été fait par le Bureau du recensement et des statistiques.

Un rapport préliminaire contenant la statistique des provinces maritimes a été publié dans le bulletin III, en novembre dernier, et un autre rapport contenant la statistique d'Ontario a été publié en décembre dans le bulletin IV, dans lesquels les résultats sont donnés par provinces seulement. Le présent bulletin contient les résultats définitifs pour les cinq provinces par comtés, mais les tableaux sommaires x à XVIII donnent les statistiques comparatives pour les années de recensement 1901 et 1907 par provinces. Les récoltes des champs pour 1901, cependant, représentent la moisson de 1900. Un autre fait à noter dans l'examen des statistiques comparatives, c'est que tandis que le recensement de 1901 a été pris à la fin de l'hiver, après la réduction par l'abattoir ou la vente du surplus des animaux, les chiffres de 1907 sont ceux de la saison d'été, y compris les additions du bétail de l'année par l'augmentation naturelle.

Les tableaux sommaires x à XVIII, montrant les totaux, les augmentations et les proportions, sont assez complets pour se passer de commentaire. Mais l'attention peut être attirée sur trois en quatre points principaux. Le premier est une augmentation de 2,877,992 acres en terre à culture défrichée, dans les cinq provinces en six ans. Le deuxième est une augmentation de 1,535,679 acres en toutes récoltes des champs, y compris 333,798 acres en grains mêlés et 1,128,256 acres en foin. Le troisième est une augmentation de 799,603 dans le nombre de vaches à lait et autres bêtes à cornes. Le quatrième est une diminution de 699,814 acres et de 10,533,604 boisseaux dans le blé, ce qui s'explique sans doute par la production plus grande et à meilleur marché de cette céréale dans les provinces du Nord-Ouest.

Recensement agricole dans Ontario, Québec et les provinces maritimes, 1907.

Bulletin préliminaires et définitifs.
